

L. Earl Gray, Jr.

Education

- B.S., Cornell University, Ithaca, NY; Biology, 1967.
- Ph.D., North Carolina State University, Raleigh, NC; Zoology, 1976.

Professional Experience

- 1979-present: Research Biologist, EPA.

Research Interests

- Cellular and molecular mechanisms of toxicant-induced alterations of morphological and behavioral sexual differentiation in male and female rodents.

Professional Activities

- Editorial Boards: Journal of Toxicology and Environmental Health, Biology of Reproduction.
- Undergraduate, graduate, and postdoctoral trainee research advisor: University of Florida, North Carolina State University, and University of North Carolina at Chapel Hill.
- Member, Organizing Committee, Ten Year Review of Endocrine Disrupting Chemicals Research for meeting at the Finnish Academy of Science. 2006.
- Symposium organizer and co-chair, International Toxicology Association, meeting on sexually dimorphic behavior and nervous system development. 2007.
- Member, Expert Science Panel for Bisphenol A, Center for the Evaluation of Risks to Human Reproduction. 2007.
- Member, Organizing Committee, Copenhagen meetings on endocrine disrupting chemicals and reproductive health. 2004 and 2007.
- Chair, Workshop on Mechanisms of EDC Action, Finland Academy of Science. 2006.
- Two EPA bronze medals, 2005.
- Member of organizing committee, and speaker, Copenhagen Workshop on the Environment, Reproductive Health and Fertility. 2005.
- Instructor, Teratogens Update Course, Massachusetts General Hospital, Boston, MA. 2005.
- Member, Endocrine Disrupting Chemicals Research Planning Committee, National Health and Environmental Effects Research Laboratory ,EPA. 2000-present.
- Member, Endocrine Disruptors Research Strategy Committee, Office of Research and Development, EPA. 1996-present.

Invited Lectures/Symposia

- International Neurotoxicology Association Symposium: Effects of EDCs on sexually dimorphic behavioral and nervous system development. 2007.
- 4th Copenhagen Workshop on Endocrine Disruptors (organizer, session chair, and speaker): Cumulative reproductive effects on in utero administration of mixtures of anti-androgens in male SD rats: Synergy or additivity? 2007.
- British Toxicology Society, Annual Congress, Symposium on Chemical Interactions and Implications for Risk Assessment: Cumulative effects of antiandrogens in male rat sexual differentiation: Synergy or additivity? 2007.
- Workshop on Phthalate Effects on Reproductive Health II. Paris, France. 2006.
- Center for Alternatives to Animal Testing, Developmental Neurotoxicity Testing Symposium: Strategies to reduce or replace the use of animals in endocrine screening and testing studies. 2006.
- United Kingdom Food Safety Committee Meeting on Endocrine Disrupting Chemicals: Mixtures of antiandrogens. 2006.
- California legislative subcommittee hearing: Testimony on reproductive toxicity of phthalates. 2006.
- National Institute of Diabetes and Digestive and Kidney Diseases/National Institutes of Health, Meeting, Bethesda, MD: Research needs in pediatric urology. 2005.
- Phthalate Esters and Reproductive Health European Workshop, Mello, France: Mechanism of phthalate-induced developmental reproductive toxicity: Inhibition of testosterone and insulin-like hormone 3 production by fetal and pubertal Leydig cells. 2004.
- Gordon Conference, New London, NH, Endocrine Disrupting Chemicals. 2004.
- EPA, Endocrine Disruptor Methods Validation Subcommittee Meeting presentations for Endocrine Disruptors Screening Program. 2002, 2003.
- Continuing education course on Children's Health Issues, North Carolina State University, Raleigh, NC. 2003.
- Society of Environmental Toxicology and Chemistry Pellston Workshop on Pharmaceuticals in the Environment, Snowbird, UT. 2003.
- International Symposium on Endocrine Active Substances, Scientific Committee on Problems of the Environment/International Union of Pure and Applied Chemistry, Yokahama, Japan. 2002.
- Symposium on Hypospadias, Urology Department, University of San Francisco, CA. 2002.

Selected Publications

Owens W, Gray LE, Zeiger E, Walker M, Yamasaki K, Ashby J, Jacob E. 2007. The OECD program to validate the rat Hershberger bioassay to screen compounds for *in vivo* androgen and antiandrogen responses: Phase 2 dose-response studies. Environ Health Perspect. 115:671-8. [Abstract](#)
